

HOOK & LINE KIT

SPEC SHEET: TACTICAL ELECTRONICS

EOD TOOL
KITS

DESCRIPTION

The lightweight and compact Hook and Line Kit gives EOD operators the tools necessary for dismantled IED render-safe procedures. The nylon kit weighs under 4 pounds and is small enough to fit into a cargo pocket, backpack or strap to a vest with the molle straps. The 12.5 foot telescoping pole weighs only 2.4 pounds and is made of carbon fiber. The pole is also housed in a nylon case that can easily be strapped to a backpack via molle. Originally designed by Air Force EOD, this kit is ideal for all EOD operators, Bomb Technicians and Special Operations teams. This kit compliments our 2nd Line EOD kit and can easily be added to the larger 2nd line pack.

SPECIFICATIONS

WEIGHT:	Pouch = 3.7lbs	Pole = 2.4lbs
